at a time when more and more of what people learn both in formal courses and in everyday life is mediated by technology learning online provides a much needed guide to different forms and applications of online learning this book describes how online learning is being used in both k 12 and higher education settings as well as in learning outside of school particular online learning technologies such as moocs massive open online courses multi player games learning analytics and adaptive online practice environments are described in terms of design principles implementation and contexts of use learning online synthesizes

research findings on the effectiveness of different types of online learning but a major message of the book is that student outcomes arise from the joint influence of implementation context and learner characteristics interacting with technology not from technology alone the book describes available research about how best to implement different forms of online learning for specific kinds of students subject areas and contexts building on available evidence regarding practices that make online and blended learning more effective in different contexts learning online draws implications for institutional and state policies that would promote judicious uses of online learning and effective implementation models this in depth research work concludes with a call for an online learning implementation research agenda combining education institutions and research partners in a collaborative effort to generate and share evidence on effective practices

in recent years funding agencies like the institute of educational sciences and the national science foundation have increasingly emphasized large scale studies with experimental and quasi experimental designs looking for objective truths educational researchers have recently begun to use large scale studies to understand what really works from developing interventions to validation studies of the intervention and then to efficacy studies and the final scale up for large implementation of an intervention moreover modeling student learning developmentally taking into account cohort factors issues of socioeconomics local political context and the presence or absence of interventions requires the use of large data sets wherein these variables can be sampled adequately and inferences made inroads in quantitative methods have been made in the psychometric and sociometric literatures but these methods are not yet common knowledge in the mathematics education community in fact currently there is no volume devoted to discussion of issues related to large scale studies and to report findings from them this volume is unique as it directly discusses methodological issue in large scale studies and reports empirical data from large scale studies

written by two professionals with differing perspectives this text covers both research and practice it offers basic how to information on the use of such systems covers topics and issues for which there are no accepted paradigms and discusses alternative points of view within a framework of previous research designed to assist beginning searchers the text covers online systems that primarily provide information in the form of bibliographic citations

to provide our customers with a better understanding of each title in our database we ask that you take the time to fill out all details that apply to each of your titles where the information sheet asks for the annotation we ask that you provide us with a brief synopsis of the book this information can be the same as

what may appear on your back cover or an entirely different summary if you so desire

youth online chronicles the stories of young people from several countries the us australia canada switzerland and holland and their interactions in online communities over a seven year period it examines how young people construct their identities in various social contexts social fantasy role playing and for various social purposes leadership learning power rebellion and romance it explores the ways youth are deploying both visual and literary cues to develop a full sense of presence online and to effectively communicate with their peers using methods of textual visual and socio psychological analysis this book illuminates the ways in which young people are making sense of their own identities and their place within broader communities
